

Your eye test at school

An Easy Read guide

Home Opticians

The eye test at your school

An **optometrist** will come to your school.

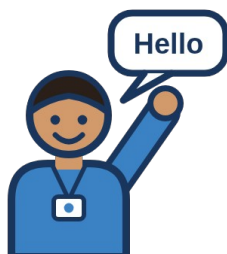

The eye test is at your school. You do not need to go anywhere else.

The room is quiet.

Someone you know can stay with you.

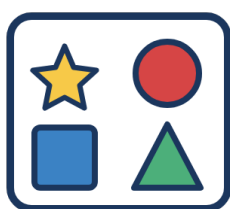

The **optometrist** will say hello.

During your eye test

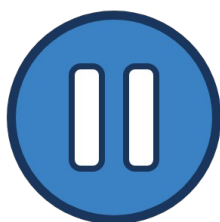

The **optometrist** may shine a light in your eyes. You do not need to say anything.

You might look at pictures or shapes.

We go at your pace. There is no rush.

You can have a break when you need one.

Sometimes we come back another day.

Glasses

Some people need glasses. Glasses help you see better.

Glasses are free.

We fit your glasses at school.

Tell someone if your glasses do not feel right.

Tell someone at school if your glasses get lost or broken. We will help.

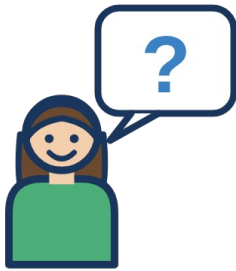

After your eye test

We write a **report** about your eyes.
Your school gets the **report**. Your family can get a copy too.

You will get an eye test at least once a year.

Do you have a question? Ask a teacher or someone you trust.

Hard words

optometrist: a person who checks your eyes. They find out if you need glasses.

report: a paper that tells you what we found out about your eyes.

About us

Home Opticians made this book. We do NHS eye tests in special schools in Greater Manchester.
